Why did you choose to be part of the Orr Fellowship?

"The Orr Fellowship provided something that no other job options did: the chance to work with and be mentored by quality individuals who are established players in Indiana's economy."

What is your role at your host company?

"I work in Brightpoint's Supply Chain Solutions Department as a Project Coordinator. The Supply Chain Solutions team focuses on direct-to-consumer, direct-to-store and national retail fulfillment services for our clients in the wireless industry. We can customize devices through software loading, flashing, kitting, packaging and branding solutions. My daily activities focus on inventory management solutions, from end-to-end serialization and reverse logistics to transportation management and comprehensive procurement services. Further, I am responsible for full tracking and reporting on contract terms and dollars both to the client and to corporate senior management."
